

THE VILLAGE AT
AUGSBURG
A National Lutheran Community

Date: August 2, 2022
To: All AL and SNF Residents and Families
From: John Ottena, Healthcare
Administrator
Subject: Path Forward Update

This morning we learned a team member who works in assisted living tested positive for COVID-19 on July 31. Fortunately, this team member has not been in the community since July 24. We have not identified any residents who had direct contact with this team member during the infection window. We continue to test team members for the virus twice a week and will test residents as needed when completing contact tracing. There are no changes to visitation at this time.

We are grateful for your support and hope you are well.
